About Anna University & CES

Anna University was established on 4th September 1978 as a unitary type of University. It offers higher education in Engineering, Technology and Allied Sciences relevant to the current and projected needs of the society. Besides promoting research and disseminating Knowledge gained there from, it fosters cooperation between the academic and industrial communities. The Center for Environmental Studies (CES) was established as Division of Public Health Engineering in the year 1955 with the assistance from the World Health Organization (WHO). It was developed into Center for Environmental Studies in 1982. The Center has made significant contributions in the field of Environment and has rich tradition of Teaching, Continuing Education, Research, Consultancy and Extension Programmes successfully for the past 62 years.

About ALM Endowment Lecture

Sir **Arcot Lakshmanan Mudaliar** was an Indian educationist and physician. He became the longest serving Vice-Chancellor of Madras University (27 years) and principal of Madras Medical College. He was also the Deputy Leader of the Indian delegation to the first World Health Assembly in Geneva in 1948. He was elected as the chairman of the World Health Organization (WHO) Executive Board in 1949 and 1950, was Vice - President of the Eighth World Assembly in 1955 and President of the Fourteen World Health Assemble in 1961. He was knighted in the 1945 New Year Honors. Awarded the Padma Bhushan in 1954 and the Padma Vibhushan in 1963. He served as General President of the 46th Indian Science Congress held in 1959. ALM Endowment Lecture is organized to honor his service to Technical Education in the country. His contributions to the field of Obstetrics and Gynecology, Medical Education and World Health are so varied and distinguished that one has to wonder in which field he had made a greater contribution.

About National Seminar

In celebration of International Women's Day, on March 8, 2024, under the theme ***“Invest in women: Accelerate progress”***. Empowering women in Resource Efficiency and the Circular Economy promotes diverse perspectives, Community Engagement, and Entrepreneurship. Through education, training, and policy advocacy, women become catalysts for sustainable development. Women contribute to innovation, job creation, and resilience-building while advocating for Environmental Protection. Collaboration between women's organizations, NGOs, and governments drives inclusive solutions, fostering both gender equality and environmental sustainability. Our event aims to shed light on the remarkable contributions of women in various aspects of Environmental Protection and Sustainability Initiatives.
